

# Open Access questionnaire by RRI Tools

---

## Open Access questionnaire by RRI Tools

---

1. Are there policies on open access in your organisation?

Policies on open access have been successfully implemented

Policies on open access are under development

There are policies on open access, but they are hardly considered

There are no policies on open access, but I would appreciate having some

There is no need for policies on open access

Possible improvements?

---

2. How are your policies on open access integrated in your organization?

They are part of our mission statement

We have a strategy for communicating our open access policies

They are disseminated via trainings

They are considered as not relevant

How to improve communication on open access policies?

## Open Access questionnaire by RRI Tools

---

3. Is the ownership of the outcomes of your work clear?

Ownership is clearly and transparently traceable for all

Ownership is openly accessible for selected persons

The ownership is not clear

How to make ownership of outcomes clearer?

## Open Access questionnaire by RRI Tools

---

4. Which parts of your work are openly accessible?

Objectives, aims and goals

Methodologies

Data

Computer codes

Preliminary results

Final results

Uncertainties and limitations

No parts of my work are openly accessible

How to improve accessibility?

---

5. To what extent do you ensure that the results of your work are accessible?

Results are shared with all actors involved and/or affected

Results are only shared with actors whom we consider to be necessary

There is no need to share results with different actors

How to improve accessibility of results?

## Open Access questionnaire by RRI Tools

---

6. Open access involves transparency in different elements.

Do you consider the following in your work?

Openly accessible feedback from stakeholders

Transparent overview of financial means/expenditures

Available declaration of interests and affiliations of all actors

I do not consider any of the above

How to improve transparency of our research?
